349 EUR per user // free for users from IDTA member companies

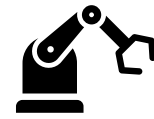

Target group:
Leaders with an interest in developing a basic understanding of the digital twin and asset administration shell

The Digital Twin Awareness Training

Industries are rapidly digitalizing in order to optimize their processes to keep up with the demands of customers. Several tools and concepts are appearing to promote this digitalization process; 2 of which are the digital twin and the asset administration shell.

Through a blended learning approach, develop your understanding of the digital twin and what it means for you and your organization.
