

# Digital Twin Trainings

Digital twins are at the heart of the industry in the future, and the asset administration shell is the implementation of the digital twin for Industrie 4.0.

The Industrial Digital Twin Association and University4Industry offer two unique, pre-competitive training programs covering basic knowledge and understanding about digital twins and their concrete implementation.

But what do these terms actually mean?

How can they be implemented in practice to enable a variety of use cases?

**Target group awareness training:** leaders with an interest in learning more about the digital twin

**Target group implementation training:** developers who would like to start implementing the digital twin

**Blended learning**  
incl. 3-4 live sessions per training

**2 hours per week**  
over 4 weeks per training

**399 EUR** per user per training **599 EUR** for both trainings  
**25% Discount for IDTA members**
